

WOODEN TOYS

Kay Bojesens Wooden animals
- Danish classics.

Few products have been more loved than Kay Bojesens wooden animals, such as the world renowned monkey, rocking horse and the elephant.

The monkey with the pranksters look and the light colored belly have transformed childrens rooms to jungles and sent dreams across the world since 1951. The monkey is made from teak and limba tree. With his goodnatured look and his robust physique, Kay Bojesens elephant presents itself with a trust-worthiness that makes him a true companion from the playpen and to the next generation. The elephant is made from oak. The rocking horse is stiff-legged and upright, but with a trustworthy mind and an open face. The rocking horse is made from beech.

Monkey, 20 cm.
Designer: Kay Bojesen
