

IMPORTANT INSTRUCTIONS – please read before use and do not discard this sheet, but keep it with the product and packaging.

CM-5960 APOLLO Fireplace for the Tabletop

Design: Wolf Wagner for **CARL MERTENS**

Congratulations on your purchase of the **APOLLO** Fireplace for the Tabletop. The combination of 18/10 satin stainless steel, glass, quality workmanship and functional design will provide many years of enjoyment.

Handling and care of the Fire Place:

- Use only premium quality liquid fuel designed for bio-fireplaces and glass fireplaces, such as Fanola Premium Liquid Fuel available through www.fanola.com or similar bio-fuel available at hardware stores.
- Position the fireplace in a draft-free location. Fill the fuel holder no more than $\frac{3}{4}$ full of the fuel. Put the adjustable doors in position, engaged but fully opened. A handle for the doors is included – keep out of reach of children!
- Light the fuel with a long lighter, such as the Carl Mertens 5818 or 5819 lighters. If matches are used, long wooden matches are best. *Beware of the flame at the moment the flame engages with the fuel! Keep hair and face away from the top of the glass frame!!!*
- Once the flame has established itself, the adjustable doors can be partially closed so the flame is not as wide.
- When $\frac{3}{4}$ full, the fuel will burn for three to five hours, depending on how open or closed the adjustable doors are positioned.
- DO NOT move the fireplace when the flame is burning. The fireplace should be moved only when it is cold.
- At all times, the Fire Place **MUST** be kept out of the reach of children, especially when lighted.
- Cleaning: All parts can be cleaned with a soft, dampened cloth.

Limitation of Liability: Your **CARL MERTENS** Fire Place can cause injury to you or others if not treated with respect and handled and used with extreme care. **CARL MERTENS** cannot be responsible for personal injury or other damage resulting from: disassembling; tampering with; misusing; abusing; or from improper care or handling.

CARL MERTENS and its distribution network **will** not be liable for any accidental, consequential damages nor direct or indirect losses arising from the use of the Fire Place.
