

# Sushi Alucompact® DEPTH 90

Designed by Bartoli Studio

Extending or fixed table with an anodised aluminium structure and Alucompact® layered laminate tops. Alucompact® is a laminate that has been layered at a high temperature by adding sheets of aluminium in the layering phase that give it a strong structural stability. The extending mechanism with two or three extensions makes it possible to easily increase the length of the top while maintaining excellent sturdiness.

### Leg finish:

- Anodised aluminium
- Aluminium with white lacquer
- Aluminium with anthracite grey lacquer
- Aluminium with black lacquer

### Finish of top/extensions:

- White laminate
- Grey laminate
- Anthracite grey laminate
- Black laminate
